PRIVACY NOTICE – PUPIL DATA

Introduction

As a school we collect educational information about our pupils. This notice explains why we collect the information, how we use it, the type of information we collect and our lawful reasons to do so.

Why do we collect data?

We collect and use pupil data to:-

- Fulfil our statutory obligations to safeguard and protect children and vulnerable people
- Enable targeted, personalised learning for pupils
- Manage behaviour and effective discipline
- Monitor our effectiveness
- Comply with our legal obligations to share data
- Support pupils to fulfil their potential
- Keep pupils, parents and carers informed about school events and school news

Our Legal Obligations

We must make sure that information we collect and use about pupils is in line with the GDPR and Data Protection Act. This means that we must have a lawful reason to collect the data, and that if we share that with another organisation or individual we must have a legal basis to do so.

The lawful basis for schools to collect information comes from a variety of sources, such as the Education Act 1996, Regulation 5 of The Education (Information About Individual Pupils) (England) Regulations 2013, Article 6 and Article 9 of the GDPR.

The Department for Education and Local Authorities require us to collect certain information and report back to them. This is called a 'public task' and is recognised in law as it is necessary to provide the information.

We also have obligations to collect data about children who are at risk of suffering harm, and to share that with other agencies who have a responsibility to safeguard children, such as the police and social care.

We also share information about pupils who may need or have an Education Health and Care Plan (or Statement of Special Educational Needs). Medical teams have access to some information about pupils, either by agreement or because the law says we must share that information, for example school nurses may visit the school.

Counselling services, careers services, occupational therapists are the type of people we will share information with, so long as we have consent or are required by law to do so.

We must keep up to date information about parents and carers for emergency contacts.

How we use the data

In school we use various third party tools to make sure that pupils' best interests are advanced. We also record details about progress, attainment and pupil development to support future planning and learning.

We use software to track progress and attainment.

We use data to manage and monitor pastoral needs and attendance/absences so that suitable strategies can be planned if required.

Data can be used to monitor school effectiveness, the impact of intervention and learning styles across groups of pupils as well as individual children.

We may use consultants, experts and other advisors to assist the school in fulfilling its obligations and to help run the School properly. We might need to share pupil information with them if this is relevant to their work.

We also use contact information to keep pupils, parents, carers up to date about school events.

What type of data is collected?

The DfE and government requires us to collect a lot of data by law, so that they can monitor and support schools more widely, as well as checking on individual schools effectiveness.

The categories of pupil information that the school collects, holds and shares include the following:

- Personal information – e.g. names, pupil numbers and addresses

The National Pupil Database (NPD)

The NPD is owned and managed by the Department for Education and contains information about pupils in schools in England. It provides invaluable evidence on educational performance to inform independent research, as well as studies commissioned by the Department. It is held in electronic format for statistical purposes. This information is securely collected from a range of sources including schools, local authorities and awarding bodies.

We are required by law, to provide information about our pupils to the DfE as part of statutory data collections such as the school census and early years' census.
